

Fall Has Arrived

With fall upon us, the days are getting shorter and darker. Now is a good time to do some simple and effective crime prevention safety checks.

- Make sure exterior lights are in good working order
- Set lights on timers to coincide with dusk hours
- Trim bushes and hedges away from windows and doors
- Make sure your address is clearly visible from the street in case an emergency response is needed

Back to School Safety

School is back in session, which means children walking and riding bikes along the streets, increased vehicle traffic in school zones, and buses picking up and dropping off students throughout the city.

- Obey 20 MPH School Zone speed limits
- Be aware of the presence of children
- Wait for crossing guards and children to clear entire crosswalk before proceeding through intersections

STOP FOR SCHOOL BUS WHEN:

- Lights are flashing orange in preparation for bus to stop
- Lights are flashing red, "stop" paddle is displayed and you are on a two lane highway
- Lights are flashing yellow or red, "stop" paddle is displayed, and you are on a multiple lane highway traveling **same** direction as the bus
